

# Cable clamp KR 14 HDG

SORMAT CODE 

9640013314

## Steel cable clamps that can be attached to 40x40 angle iron structures

- Type KR is a hot dip zinc coated cable clamp for clamping cables, tubes, and other elongated elements.
- KR is designed to be attached in structures made of 40x40 angle iron.
- The KR range also includes clamps for two and three cables.
- The size digits indicate the maximum cable/tube diameter.

## APPLICATIONS

- For angle irons

## Technical data

### INSTALLATION DETAILS

|                         |    |
|-------------------------|----|
| Width across flats (SW) | 10 |
| Suitable diameter, Ø mm | 14 |
| Height                  | 74 |

## PRODUCT OVERVIEW

|             |                                     |
