

Plasterboard fixing KLA met (10 DIY)

SORMAT CODE 9640095602

Self-drilling metallic quickie for fixing into gypsum plasterboard walls

- Fire-proof self-drilling anchor for standard and composite gypsum plasterboard walls and gypsum fibreboard walls.
- Predrill with a 8 mm drill bit when fixing to gypsum fibreboard and double-planked gypsum plasterboard.
- The quickest way to fix light objects. No special tools needed, just a PZ2 screwdriver. Set flush with the board surface, do not overtighten.
- Equipped with a 4,5 x 35 mm ZP screw. Can also be used with other suitable wood- and self-tapping and chipboard screws, hookscrews and eyescrews.
- ZP for dry indoor and temporary outdoor use.

APPLICATIONS

- Pictures
- Paintings
- Lighting
- Coat hangers
- Electrical installations

Technical data

INSTALLATION DETAILS

Length (L)	31
Max. fixture thickness (T _{fix})	12
Min. sheet thickness (T _{sheet, min})	9
Free space behind the sheet	19
Suitable screws Diameter	4,5 x 35

PRODUCT OVERVIEW

Other codes	SNRO 1372069 /
Material	Zinc die casted
Packages	box (bag): 10 / outer carton: 100 / piece: 1
Weight	6.3 kg / 1000

BASE MATERIALS

ALSO SUITABLE FOR

- Gypsum plasterboard
- Gypsum plasterboard composite

Performance data

Base material	Load type	Load direction	Load value
All			
Gypsum board standard, thickness 12,5 mm	N _{Rec}		0.08 kN
Gypsum board composite, thickness 12,5 mm	N _{Rec}		0.08 kN

Installation
